Transferee

Subject: Deficient Small Mine Transfer Notice, Request for Reclamation Surety (transferee), Reclamation Contract (transferee) and Map (transferee/transferor), Cedarstrom Calcite Mine, S/049/012, Box Elder County, Utah

Dear Current/Proposed Operator:

In July 2006 the Division received a complete and signed Transfer of Notice of Intention, Small Mining Operations for the Cedarstrom Calcite Mine.

In order to proceed with the transfer and obtain Division approval the following reclamation surety requirements must be satisfied:

- The **transferee** must submit the reclamation surety amount of \$18,600.00. The form and amount of surety must be effective before the date of the transfer.
- A reclamation contract for small mining operations must be completed and submitted by the **transferee** to the Division in its original form. Please contact Ms. Beth Ericksen for information required for its submittal.
- The map included with the application does not meet Division acceptance criteria. In order for the Division to determine the required reclamation surety amount, sufficient map detail is required. It must include:

1. Labeled Appendix A;

2. Must contain a legend that includes: operator name, site name, acres, date, legal description, north arrow, permit number, scale;
3. Map must show and label existing disturbance and structures;
4. Map is required to be at a scale 1 inch = 200 feet

According to R647-3-116 the new mine operator (transferee) must post adequate reclamation surety and assume full responsibility for all disturbances of the permitted operation.

In addition, 2006 permit fees remain unpaid. **Please direct your attention to satisfying these requirements immediately.**

Please contact Mr. Lynn Kunzler at (801) 538-5310 for permitting questions or Ms. Beth Ericksen (801) 538-5318 for surety questions.

Sincerely,

Susan M. White
